Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner indicated that the after final response was received by the USPTO mail room on 12/9/03 and by Tech Center 1600 on 12/11/03. The after final response has been scanned into the image file wrapper, but has not yet been entered into the computerized docket tracking system. Accordingly, the Examiner may not yet act upon the after final response. However, the Examiner has reviewed the after final response in the image file wrapper, and has determined that it overcomes all rejections of record. The Examiner has requested that the after final response be officially entered into the docketing system, so that the status of the application may be changed to "response after final submitted". Upon said entry, the Examiner will submit a proposed Examiner's Amendment to correct minor typographical and grammatical errors..
